Health Pointe on Schedule for 2018 Opening

GRAND HAVEN, Mich., December 19, 2017— [Health Pointe](#), the newest lakeshore medical facility, is on track to open to patients in a matter of months.

The outpatient integrated care campus will offer both primary and specialty health care services to lakeshore patients. Health Pointe, a 50/50 joint venture between [Spectrum Health](#) and [Holland Hospital](#), is expected to open in March 2018.

“Health Pointe will offer northern Ottawa County a great choice of experienced local providers and numerous specialists together in one convenient location,” said Joshua Troast, executive director of Health Pointe.

Health Pointe will feature primary care, urgent care, specialty care, laboratory and radiology services (CT and MRI), as well as outpatient surgery. The integrated care facility will offer access to a broad range of outpatient procedures, such as ear, nose and throat surgery, colonoscopy, gallbladder removal, hernia repair, cosmetic and reconstructive surgery, orthopedic and sports medicine surgery and much more. Interested patients can find out more about the providers on the Health Pointe website, www.health-pointe.org.

“We’re very excited for Health Pointe to open and to offer the Grand Haven community additional health care choices,” said Troast. “This brand new, state-of-the-art building offers one-stop shopping without having to travel to multiple offices.”

The 100,000+ square foot building was designed by [AECOM](#) and constructed by [Granger Construction](#). Project Manager for Granger Construction Joseph Durfee says a “great majority” of tradespeople working on Health Pointe are local and come from a 60-mile radius of the Grand Haven community. At the peak of construction, Durfee says they had about 130 tradespeople on site per day.

Health Pointe continues to hire in preparation for the March 2018 opening (full list of postings [here](#)). For more information about Health Pointe visit our [website](#) or our [Facebook page](#).

###

[Health Pointe](#) is an integrated care campus located in Grand Haven, Michigan with 230 physicians, advanced practice providers and other health care professionals. Formed through a partnership between [Holland Hospital](#) and [Spectrum Health](#), Health Pointe offers primary and specialty physician care, urgent care, laboratory and radiology (including CT and MRI), outpatient procedures and surgery. Patients have the added convenience of single patient check-in, shared medical records and seamless coordination of primary and specialty care.
